- I am passionate about software development, with a strong desire to become a software engineer, programmer, or front-end developer. I enjoy problem-solving and tackling challenges.
 - I am a highly responsible and adaptable individual who is always eager to learn new technologies and improve my skills.
-

EDUCATION

- **Bachelor of Engineering, Computer Engineering**
 - Naresuan University, 2025
 - GPA 3.19

SKILLS

- React, Node.js, JAVA, C/C++, Python, HTML, CSS, MySQL, SSMS, MQTT
-

PROJECTS

react,node.js,mysql
2024 - 2025

Digital platforms for safety unit v.2 and Line OA

Developed a workplace safety officer web system with digital platform data transmission, AI integration, and Line OA for report sharing and notifications, replacing traditional web-based submissions

microcontroller iot
2023

Line-Following Robot

Using the Arduino UNO R3 Microcontroller Board to Build a Line-Following Robot.

nodemcu iot
2023

Automatic Pet Feeder

Using NodeMCU ESP8266 with Infrared Module to Build an Automatic Pet Feeder with Scheduled Feeding and Real-Time Monitoring via NETPIE and MQTTBox.

javascript,html,css
2022-2023

Search system for tutoring resources

Developed a platform for tutoring centers that displays information about available tutoring locations, includes sample teaching videos, and offers a sign-up feature for course enrollment.

EXPERIENCE

java, javascript,html,css
Apr 2024 - Jun 2024

Frontend Developer

Internship experience working on the frontend, where I designed a Swimlane Activity Diagram and developed the frontend of the Payor Office website. Implemented additional functionalities, including search, edit, update, and autocomplete.
